SKILLS

- ❖ **Languages & Frontend:** HTML, CSS, JavaScript, TypeScript, Tailwind CSS
- ❖ **Frameworks & Libraries:** React, React Router, Next.js, Express.js, Node.js
- ❖ **Database & Auth:** MongoDB, Better Auth, JWT, Google Auth
- ❖ **Currently Exploring:** Context Engineering

EDUCATION

- ❖ Secondary School Certificate (SSC) | Shahjalal High School 2026
- ❖ Junior School Certificate (JSC) | Shahjalal High School 2022

ACADEMIC PROJECTS

- ❖ **Dynamic Portfolio Web App | Next.js, React Router, MongoDB, Better Auth, Tailwind CSS, TypeScript**
 - Built a role-based platform where the admin can post, manage, and feature projects on the home page, while visitors can comment, rate projects, and connect through live chat.
 - Designed for easy project updates and quick, easy connection for recruiters, who can view, rate, and reach out directly.
 - Implemented Next.js API routes and Better Auth for a secure, role-based authentication system.

- ❖ **RE-Market | Next.js, React Router, Express.js, Node.js, MongoDB, JWT, Google Auth, Better Auth, Tailwind CSS**
 - Developed a fully responsive, role-based marketplace with JWT-protected routes for three roles: buyer, seller, and admin.
 - Enabled sellers to list old products with complete details for safe transactions, and buyers to purchase and rate products.
 - Gave admins full control to monitor activity, remove products, and ban users or sellers when needed.

- ❖ **MediQueue | Next.js, React Router, Express.js, Node.js, MongoDB, Better Auth, Tailwind CSS**
 - Built an online teacher-booking platform where students can browse and book sessions with teachers.
 - Enabled teachers to list and sell their available sessions directly through the platform.

ACHIEVEMENTS / HOBBIES

- ❖ Certified in Mid-Level Mobile Engineering and Bangladesh Youth Development (Government-certified), scoring A+ in both.
- ❖ **Gym:** Training for 3 years — it has given me discipline, confidence, and energy.
- ❖ **Tech & Hardware:** Started exploring hardware at age 15, building a stun gun that delivers 3 lakh volts and a rechargeable fan/light; currently working towards building a CCTV system controlled via WiFi signals using an ESP32.
- ❖ **Movies:** A movie lover — enjoys Marvel films, soft Malayalam stories, South Indian action films like Marco and HIT 3, and Kerala suspense thrillers that keep me on the edge of my seat.
